GANDHAM BHARATH CHANDRA

Results-driven Software Developer with 3 years' expertise in .NET Core and web application migration seeking a challenging role to leverage advanced technical skills in Microservices Architecture, MVC , and Agile methodologies for impactful contributions in software development initiatives.

✉ gandhambharathc@gmail.com

📞 +91 7386192894

CORE SKILLS

- .Net Development
- SDLC
- Front-end Development
- DevOps Practices
- Microservices Architecture
- Database Management
- Performance Optimization
- Security Compliance
- Cloud Infrastructure

SOFT SKILLS

Communication

Collaboration

Time Management

Decision Making

TECHNICAL SKILLS

- **Web Development**:.NET Core, ASP.NET MVC, C#, HTML, CSS, JavaScript, jQuery, Ajax, Razor Pages, Angular, Kendo UI
- **Backend Development**: Web API, SQL Server, Entity Data Model (EDM), Redis Cache, HCP file transfer, Splunk Logging Mechanism, Microservices Architecture
- **Authentication & Authorization:** PingFederate Authentication
- **Development Process & Collaboration:** Agile methodology, GitHub, JIRA
- **Testing**: N-Unit,Postman
- **Cloud and Hosting:** Microsoft Azure
- **Additional:** Java

PROFILE SUMMARY

- A focused Software Developer with **3 years** of experience, specializing in migrating Web forms, Console, and Web Applications to .NET Core.
- Skilled in implementing advanced technologies including PingFederate Authentication, Redis Cache, HCP file Transfer, and Splunk Logging Mechanism.
- Maintained up-to-date knowledge of contemporary terminology, concepts, and optimal methodologies for mobile app development.
- Proficiently leveraged built-in development functions within content management systems.
- Managed websites for long-term clients, implemented design and content modifications as per requirements.
- Demonstrated skill in front-end debugging and adeptly reported backend bugs to Back End Developers.
- Designed technical interfaces, specifications, and architecture to ensure robust mobile app performance.
- Adapted and integrated existing web applications into mobile platforms, leveraging adaptability and scalability.
- Innovatively drove the adoption of Microservices Architecture to enhance communication efficiency and scalability within software development initiatives.
- Demonstrated ability to learn and adapt to new technologies quickly, evidenced by successfully conducting a Proof of Concept (POC) on Angular 13 in the current project.
- Skilled in writing and debugging N-Unit test cases for .NET Core Web API and web applications, ensuring robustness and reliability.
- Previous experience includes migration projects to cloud platforms, such as migrating web forms to Web API and transitioning ASP.NET applications to Razor pages and Angular forms.

WORK EXPERIENCE

Jan'24 –Apr'24: Software Developer, Tectoro Consulting Private Limited, Hyderabad, Telangana
Client: Broadridge
Project: Distributive Feedback Template
Technology Used: .NET Core 8, Microsoft Azure

- Spearheading a development project focused on implementing Microservices Architecture for efficient communication and scalability.
- Orchestrating the establishment of a feedback system facilitating seamless transmission of distributor insights to the manufacturer.
- Proficiently translated application storyboards and use cases into functional applications, demonstrating strong analytical and problem-solving skills.
- Designed, developed, and maintained efficient, reusable, and reliable code, ensuring optimal performance and quality of applications while actively identifying and resolving bottlenecks and bugs.

Dec'21 - Jan'24: Project Engineer, Wipro. Hyderabad, Telangana
Client: WellsFargo
FSRO (Field Search Representative Online)
Tools Used: Web API, JavaScript, jQuery, HTML, CSS, .NET Core, Database: SQL Server 2018

- Successfully led a migration project to transition WCF to Web API architecture.
- Proficiently migrated an ASP.NET Application to Razor pages, employing jQuery, HTML, CSS, JavaScript, and Kendo UI for enhanced functionality and user experience.
- Seamlessly migrated ASP.NET Web forms to Angular 13 forms, optimizing performance and modernizing the application's frontend technology stack.

Nov'19 – Sep'20: Associate Software Engineer, Prodapt Solutions. Chennai, Tamil Nadu
Project: VTR Chile
Key Result Areas:

- Proficient in resolving tickets within Jira utilizing ASP.NET MVC framework.
- Proactively troubleshoot issues through structured questionnaires tailored to the problem at hand within Jira.
- Gained expertise as an L1 Support Engineer, effectively addressing technical inquiries and concerns.

EDUCATION

○ **Master of Science, Information Technology**, from IIIT Hyderabad, Hyderabad, Telangana in 2019

○ **B.Tech., Engineering**, from Vaagdevi College of Engineering, Warangal, Telangana in 2016

PERSONAL DETAILS

Date of Birth	: 7th June 1994
Languages Known	: English, Hindi & Telugu
Address	: Indiranagar, Narsampet, Warangal - 506132 Telangana
