Goutham V
SENIOR ASSOCIATE @ PWC

Profile

Senior Associate/Lead Developer with close to 7 years of experience in the Industry. I come with vast experience in building Automations, experienced in Low code services, Open-sourced and licensed programming languages and analytical components which drive innovation.

- Have developed more than 40 Bots using UiPath and Power Automate.
- Have a good experience in leading a team and as an Individual Contributer too
- Built Alteryx solutions, designed dashboards and apps using Power platform applications
- Currently on my role I am acting as a Lead developer and a Solution Architect
- Recognized from UiPath and my organization multiple times for various initiatives
- Delivered seminars and webinars in universities and organizations

Employment History

Senior Associate, PwC

NOVEMBER 2021

- Working with Global Teams to deliver Automation solutions using UiPath, Alteryx, Power Platform.
- Developed more than 5 Processes in UiPath, 2 in Power Platform and 1 on Alteryx so far in PwC.
- Leading RPA Projects in our team.
- Managing delivery across multiple projects and internal initiatives.
- Mentoring teams on ongoing projects and technical blockers.
- Conducting webinars on RPA and Low code services across the BU.
- Latest Projects as a Lead Developer:
  T-Mobile: Power Automate Cloud Flow, Power Apps, SharePoint
  Short Description: The flow is scheduled to trigger everyday, during processing it filters the rows which are due and sends email attaching power app form. The result of the form saved in an Excel Online saved in a SharePoint library. The process is responsible for triggering follow-up emails and validating the data in excel file.
  RATEC Engagement: UiPath, Alteryx, PowerBI, One-Drive
  Short Desciption: The attended bot is reponsible for reading data from pre-defined templates, after validating the same has to be written into the shared file. UiPath bot triggers Alteryx process. The results of Alteryx process is an input to the PowerBI for generating the dashboard.
  Triangle Process: Alteryx
  The process subtracts the values from the tabs present in both excel files and writes it into the output excel file.

RPA Developer/ Business Analyst, Novo Nordisk

DECEMBER 2019 - OCTOBER 2021

- Build end to end Automation Solutions in the various Department of the Company.
- During my tenure I have immensely worked on UiPath Methodology.
- Developed more than 15 Bots which majorly includes SAP
- Delivered Self-Initiated projects: Chatbot Integration with MS. Teams and Orchestrator and Automation of instant raising of tickets (ServiceNow) as Bot faults.
- Worked with various stakeholders to achieve business demand and help them throughout their automation journey.
  Conducted RPA upskill training program and POCs to strengthen in house capability.
  Received Global Award from UiPath for one of the initiated projects. Worked on developing POC's of Document Understanding.
